Subject: Materials for this afternoon's meeting on Maine WQS
Attachments: Maine Fish Sept 18.xlsx; Economic Analysis Table.xlsx

Norm, Lynn,

Sarah Levinson from R1 asked that I share the following materials with you for this afternoon's call.

The contaminants highlighted in gold/orange in the 9/18 spreadsheet are the contaminants she's still struggling with. These are contaminants for which there were no updates in the June 2015 HH AWQC table.

The other spreadsheet (Economic Analysis Table) has columns that compare existing Maine criteria with what criteria would be at tribal fish consumption rates of 286 grams/day and 514 grams/day.

Antimony
Nickel
Selenium
Zinc
N-Nitrosodimethylamine
N-Nitrosodi-n-propylamine
N-Nitrosodiphenylamine
PCBs
Methylmercury
Thallium
Arsenic
2,3,7,8 TCDD (Dioxin)
